v. 13-14

CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

AMER, FATHI, Evaluation of dry-subsurface and wet-surface ammonium sulfate application for rice 47

BOKEN, ELSE, The effect of ferrous sulphate on the yield and manganese uptake of oats on sandy soil fertilized with natural pyrolusite 128

BUNT, A. C., Some physical properties of pot-plant composts and their effect on plant growth. I. Bulky physical conditioners 322

CROOKE, W. M., KNIGHT, A. H., and MACDONALD, I. R., Cation exchange properties and pectin content of storage-tissue disks 55

CROOKE, W. M., KNIGHT, A. H., and MACDONALD, I. R., Cation-exchange capacity and pectin gradients in leek root segments 123

DESSUREAUX, L., The reaction of lucerne seedlings to high concentrations of manganese. 114

DIJKSHOORN, W., LAMPE, J. E. M., and VAN BURG, P. F. J., A method of diagnosing the sulphur nutrition status of herbage. 227

EECKMAN, J. P., et LAUDELOUT, H., Dosage du fer et de l'aluminium échangeable dans les minéraux argileux et dans les sols 68

FINCK, A., Principles and problems of the chemical estimation of the supply of available soil manganese 39

HEINTZE, S. G., Studies on cation-exchange capacities of roots. 365

FILED IN STACKS

JENKINSON, DAVID S., The production of ryegrass labelled with carbon-14. 279

JONES, L. H., Aluminium uptake and toxicity in plants 297

LAGERWERFF, J. V., The contact-exchange theory amended 253

LANGE, R. T., and PARKER, C. A., The symbiotic performance of lupin bacteria under glasshouse and field conditions . . 137

LOW, A. J., and PIPER, F. J., The influence of water supply on the growth and phosphorus uptake of Italian ryegrass and white clover in pot culture 242

MANGENOT, F., et JACQUIN, F., Produits d'humification des sciures. Quelques caracteristiques physiques et chimiques 291

MINDERMAN, G., Mull and mor (Müller-Hesselman) in relation to the soil water regime of a forest. 1

MULDER, E. G., and VEEN, W. L. VAN, Effect of pH and organic compounds on nitrogen fixation by red clover . 91

MULDER, E. G., and VEEN, W. L. VAN, The influence of carbon dioxide on symbiotic nitrogen fixation 265

NYE, P. H., Organic matter and nutrient cycles under moist tropical forest. 333

PARKINSON, D., and CLARKE, J. H., Fungi associated with the seedlings of *Allium porrum* L. 384

PARKINSON, D., and WILLIAMS, S. T., A method for isolating fungi from soil microhabitats 347

PEARSON, R., and PARKINSON, D., The sites of excretion of ninhydrin-positive substances by broad-bean seedlings . . 391

RATHJE, WERNER, Die Anionenaustauschersubstanzen Aluminium- und Eisen(3)-Hydroxyd-Silikat-Phosphat-Humat als Minerale des Bodens. 75

RATHJE, WERNER, *Letter to the editors.* Kennzeichnung der Aluminium- und Eisen(3)-Hydroxydphosphate als Austauschersubstanzen durch Einstellung sehr kleiner Gleichgewichtskonzentrationen 89

RATHJE, WERNER, Zur gegenseitigen Umwandlung von calciumgebundener Phosphorsäure und aluminium- und eisen(3)-gebundener Phosphorsäure im Boden 159

SAUBERT, SYNNÖVE, and TAGER, J. M., In memoriam Prof. Dr. Margaretha G. Mes 224

SZEMBER, A., Influence on plant growth of the breakdown of organic phosphorus compounds by micro-organisms . . 147

THOMPSON, E. J., OLIVEIRA, A. L. F., MOSER, U.S., and BLACK, C. A., Evaluation of laboratory indexes of absorption of soil phosphorus by plants: II 28

WAISEL, YOAV, Ecological studies on *Tamarix aphylla* (L.) Karst. III. The salt economy 356

YOUNIS, A. E., and HAMMOUDA, M. A., Pre-sowing gamma irradiation of cotton seeds from a point source of Cs^{137} and its effect on emergence, growth and yield 311

ZÖTTL, H., Dynamik der Stickstoffmineralisation im organischen Waldbodenmaterial. I. Beziehung zwischen Bruttomineralisation und Nettomineralisation. 166

ZÖTTL, H., Dynamik der Stickstoffmineralisation im organischen Waldbodenmaterial. II. Einfluss des Stickstoffgehaltes auf die Mineralstickstoff-Nachlieferung 183

ZÖTTL, H., Dynamik der Stickstoffmineralisation im organischen Waldbodenmaterial. III. pH-Wert und Mineralstickstoff-Nachlieferung. 207
